Volunteers Needed for Transportation Study

COTA and the OSU Wexner Medical Center need volunteers for a transportation study as a part of SMART Columbus. Research is being conducted to examine how older adults with cognitive disabilities utilize public transportation, specifically the COTA bus system. Volunteers will provide feedback on a navigation app designed to assist with public transportation in Franklin County. Travel partner volunteers are also needed. For details, contact carmen.digiovine@osumc.edu or call 614-293-7876. Please include 'Smart Columbus' in the subject line of emails.
