2020 Census Needs Workers

In 2020, the United States Census Bureau will conduct the once-a-decade census count which will serve as the basis for distributing federal dollars to states. It is very important for everyone to be counted.

In preparation for this, the Census Bureau will be hiring Census Takers in jobs that provide great pay, flexible hours and paid training. If interested, one can apply online by going to www.2020census.gov/jobs or for more information, call 1-855-JOB-2020.
