Update on Franklin County Board of Developmental Disabilities

Due to the Coronavirus and based on guidance from our Health Departments, the Franklin County Board is doing all we can to prevent the spread of the virus.

Offices will remain open during normal working hours. Some staff will be permitted to work remotely or with flexible Schedules, practicing social distancing. Below is a link to an excellent article in today's paper about social distancing.

Until further notice, we prefer that business and communications is handled over the telephone or through email to limit visitors to our buildings. The latest updates on the COVID-19 virus can be found on our website at www.fcbdd.org

Thank you for your cooperation.
