Reminder to Stay Home

As the Governor reminded us again yesterday, it is important that people should **stay home** wherever possible to prevent the spread of the Coronavirus (COVID-19). Governor DeWine stressed "it is the wisest thing to do, the safest thing to do." He further stated "the protection of life is the most important obligation that I have."

Service Coordinators, Teachers, Therapists and other staff of the Franklin County Board of DD will continue to stress the importance of this. And, when people do need to interact with others it is important to practice social/physical distancing, meaning a **separation of at least 6 feet**. Thank you!
