Columbus Zoo Sensory Night

The Columbus Zoo will have a Sensory-Friendly Summer Night on May 26 from 5:30 p.m. to 8 p.m. On this day, the Zoo will offer “quiet hours” for families to enjoy the Zoo in a calm and relaxed atmosphere without added background sounds (such as music throughout the park or the carousel) that can be challenging for individuals with sensory needs.

A limited number of animal attractions, rides, and food and beverage locations will be open to guests. Admission is \$10 per person and free to Zoo members. **Please note-** reserved tickets are required to enter the Zoo for this event to help us limit the amount of people at this experience, so please reserve spots at <https://columbuszoo.org> under the “ticket” tab.
