### Ohio Department of Health Survey

The Ohio Department of Health is conducting a statewide health and well-being assessment of people with disabilities. One component of the assessment is a survey of Ohioans with disabilities and/or their in-home care providers. Information collected through the survey will inform the development of the State Health Improvement Plan.

The anonymous survey may be completed by an individual with a disability or informal care providers of a person with a disability. Caregivers may assist those with a disability in completing the survey. Respondents must be 18 years of age or older to participate. The last date to complete the survey is March 29, 2023. To complete the survey, click on the link below:
