Medicaid Redeterminations--Don't let your eligibility expire!!!

The federal public health emergency that prevented people from being disenrolled from Medicaid will expire soon. If you receive Medicaid benefits, you must respond to requests for information or renewal packets. **If members do not respond to requests for information, they may be at risk of losing healthcare coverage or other Medicaid funding, even if they still meet eligibility criteria.**

Ohio Medicaid has begun its process to redetermine eligibility. If you receive health coverage through Ohio Medicaid, make sure your contact information is up to date. If your account has old information, you may miss important letters and risk losing your coverage. Visit benefits.ohio.gov or call 1-844-640-6446 or call 1-800-324-8680 (ext. 8) to update your contact information. Or, if you are served by the Franklin County Board of DD, feel to contact your Service Coordinator with questions.
